Raw Edge Applique

You will need the templates week 5. There are 5 houses of different colors. Trace the pattern on fusible web and cut it out. Iron on the fabric to be used and cut out. Do the same with the windows and doors. Iron all the shapes on the white blocks. Remember the 1/4 inch hem, I left that free so it didn't get too thick to sew together. I draw the hem on the white blocks with a frixion pen, then it makes it easier to place. Secure everything with a small zigzag. You can measure the doors and windows with a ruler, or just by eye.

Needleturn Applique

The templates show the parts with seam allowance. Cut out the stencils, place them on the fabric and mark them, think of your 1/4 inch hem. But maybe that's too much explanation and you know better!
