

# Block of the Month 2024

## Blok 10 Hexagon Kaleidoscope

### What you'll need:

- Piece of fabric for the background of 10.5 x 10.5 inches and pieces of fabric for the 3 different hexagons and 3 diamonds.
- Scissors, rotary cutter, ruler, chalk pencil, frixion pen
- Pins, needles, yarn according to color
- The pattern

### Traditional

Are you going to make them traditional. Then you need the 4 templates Hexagon Kaleidoscope Traditional. These are 3 different hexagons and 3 diamonds to make a large hexagon. Cut out all the templates and lay them on the fabric, draw and cut out. Put all the parts together per hexagon. Put the hexagons together with the 3 diamonds to make one large hexagon. Iron everything and place the hexagon in the middle of the chosen background fabric and sew.

### EPP

You can also make this as an English Paper Piecing. Then choose PDFs Hexagon Kaleidoscope EPP part 1 and 2. You can print this at 120 grams, which is thick enough to work with. Cut out all the templates. Cut the fabrics to size and sew around the cardboards. Put the 3 hexagons together and then join them together with the three large diamonds to form a large hexagon. Remove cardboard and iron. Place in the middle on the background fabric and sew in place.
