

Block of the Month 2024

Blok 3 Bargello Block

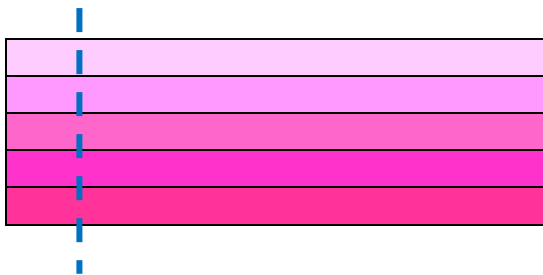

What you'll need:

- Strips of fabric of 17 inch x 1.5 inch in 5 colors and of 2 pieces each.
- Scissors, rotary cutter, ruler
- Pins, needles, yarn to color

Cut from 5 colors strips from 17 inches x 1.5 inches. 2x of each color. Sew all the strips together in order from light to dark. First the first 5, then the other 5 and then add them together. Iron everything from light to dark.

And then sew the parts together, so it's forma a roll.

Iron flat and cut straight. Now you can start cutting strips of 1.5 inches wide. They are still attached to each other like a roll. I started from the middle because the middle ones are two of the same colors next to each other. Pin them on, sew and iron. You can se on the drawing above how to place the other strips, 10 pieces in total. You can follow the pattern of the drawing, but you can certainly use your own imagination.
